Who We Are

About Us

Finovision Business Solutions is established with great ambitions to provide professional business solutions to clients in accounting, taxation, computer applications & IT consultancy

Finovision core team has extensive experience in the fields of accounting, auditing, taxation, finance & administration gained in large & diversified corporates in UAE, Oman & India along with professional qualifications such as Certified Public Accountant (Alaska, USA), MBA in finance (Manipal University, Dubai) and Diploma in GCC VAT Compliance (PWC/ATT)

Vision

Our vision is to grow as an affordable and quality solutions provider with a difference focusing on reliability, trust & customer delight

Mission

It is our endeavor to carefully understand our clients' operations, processes & people to execute precise solutions

We go extra mile to evaluate our clients' organsational weaknesses & threats to offer effective measures

Core Values

Finovision is committed to deliver prompt and tailor-made solutions adding value to client business

Consultancy Services

Accounting & bookkeeping

We understand that every business is unique. Keeping this in mind, we conduct a detailed study of our clients' business operations & roll out perfect accounting solutions.

We strengthen your accounting & back office team with setting up accounts, carrying out routine accounting, bookkeeping & payroll functions as well as finalization of accounts at specific time periods.

Auditing & Internal controls

It is vital for contemporary businesses to effectively manage business risks & information risks. Control over financials, effective & efficient operations and compliance with regulations are other critical challenges.

We support our clients to effectively deal with these challenges & achieve business objectives by offering quality & reliable auditing & assurance services at affordable value.

We perform analytical & substantive procedures to test the design & operation of internal controls, examine business transactions & documents and provide comprehensive reports to the business owners to enable decision making.

VAT / Tax Consultancy

We meticulously study our clients' business transactions and guide them to align with tax laws & regulations.

We assist our clients to maintain proper documents & records and submit tax returns to ensure full compliance with the regulations and prevent administrative penalties.

Value Added Services

ERP / Accounting Software

We have partnered with reputed software developers & distributors to offer value added solutions to our clients.

With our strong domain experience in accounting, we offer our clients ERP application most suitable for their business needs.

POS/Restaurant /Hospitality Solutions

With our strong collaboration with strategic partners, we roll out specialized applications for hotels, restaurants, cafes, bakeries, super markets & groceries to manage their business operations with one application.

CRM/Work Flow Management

As digital transformation is the buzz word in the business world, we offer our clients cutting edge CRM applications to manage their client accounts.

We offer tailor made applications most suitable for client's unique business needs and configure the modules to derive maximum value from their investment.
